

Emmanuel Francis Micah

Full Stack Developer

+2349031290387 | efrancismicah@gmail.com | emmanuelfrancismicah.vercel.app | Lagos, Nigeria

SUMMARY

Full Stack Developer with 5+ years of experience delivering complete products end to end, from database schema and backend API through frontend UI and deployment. Comfortable owning a feature from requirements to production across NestJS, FastAPI, Next.js, and React Native, with hands-on experience integrating real payment providers, real-time systems, and third-party APIs.

SKILLS

Frontend: React, Next.js, React Native, Vue 3, TypeScript, Tailwind CSS, Responsive Design

Backend: NestJS, Node.js, Python (FastAPI, Flask), PHP Laravel, Microservices, RESTful APIs, WebSockets

Database: PostgreSQL, MySQL, Prisma, SQLAlchemy, Redis, Database Design, Data Modeling

Payments and Integrations: Flutterwave, Paddle, Bachs, Paystack, Salesforce API, RevenueCat

Cloud and DevOps: AWS, Google Cloud Platform, Docker, GitHub Actions, CI/CD, Linux Server Management

Authentication and Security: JWT, OAuth2, Role-Based Access Control, Webhook Signature Verification

EXPERIENCE

DAV_INCHI Investment, Software Engineer

Abuja, Nigeria | November 2021 to November 2022

- Built an on-premise distributed system using Python Flask and Windows Server
- Integrated the Salesforce API for CRM data synchronization
- Developed a custom WordPress website with PHP plugins for an internal portal
- Managed the complete system development lifecycle, from requirements to deployment

Pykup, Full Stack Developer

Abuja, Nigeria | December 2022 to May 2023

- Integrated third-party APIs to extend platform functionality end to end
- Developed authentication systems within a microservices environment
- Contributed to React Native mobile app development alongside backend API work
- Maintained code quality with unit testing and clear documentation

TakersLogistics, Full Stack Developer

Nigeria | July 2023 to June 2024

- Created customer and driver mobile apps with React Native, backed by a Laravel/PHP microservices API
- Built a responsive marketing landing page with Next.js and Tailwind CSS
- Implemented microservices architecture with real-time WebSocket communication
- Deployed and containerized the platform on Google Cloud Platform with Docker

Surfmeal, Full Stack Developer

Abuja, Nigeria | June 2024 to January 2026

- Built React Native apps for iOS and Android with real-time order tracking
- Developed the marketing landing page with Next.js, improving user acquisition
- Architected the microservices backend using NestJS and WebSockets
- Deployed on AWS with Docker and an automated CI/CD pipeline

Kerabie, Full Stack Developer

Remote | January 2026 to Present

- Develop Kerabie, a multi-tenant omnichannel support platform: NestJS/Prisma backend, Socket.IO real-time messaging with Redis, and a Next.js dashboard

- Built the integrations that bring Kerabie into other products: a Vue 3 chat widget, a TypeScript SDK, a React Native helpdesk SDK, and a WordPress plugin
- Develop Kerabie Mail, a business email service: FastAPI backend, Next.js account console, React webmail client, and iOS and Android apps
- Integrated subscription billing across Flutterwave, Paddle, Bachs, and RevenueCat mobile in-app purchases

PROJECTS (FREELANCE / INDEPENDENT)

GruuvyPay, gruuvypay.com

Wallet and bill-payment platform. NestJS/Prisma API with Flutterwave payment integration, wallet ledgering, webhook processing, and KYC/transaction admin tooling, plus a native mobile app on Google Play and a Next.js admin console.

Quillchase, quillchase.co

AI SEO content engine that generates optimized articles and auto-repurposes them into scheduled X threads. NestJS backend with queue-based (BullMQ) AI generation jobs, Next.js frontend.

Rynote, rynote.co

AI meeting-notes application. Meeting-bot integration for Zoom, Google Meet, and Microsoft Teams transcription and summarization, Google Calendar sync, and sticky-note capture. NestJS backend, Next.js web app, React Native mobile app, and a Chrome extension.

KEY ACHIEVEMENTS

Full-Stack Delivery

- Shipped 9+ production applications end to end, owning both backend architecture and frontend implementation
- Built 25+ RESTful APIs and connected them to real, deployed frontend clients (web and mobile)
- Integrated five payment providers in production, including subscription billing and mobile in-app purchases

System Architecture

- Architected microservices for 7+ production applications across fintech, logistics, and SaaS
- Implemented real-time features with WebSockets across order tracking, live chat, and delivery updates

Cloud Infrastructure

- Deployed full-stack applications on AWS and Google Cloud Platform
- Set up CI/CD pipelines with Docker and GitHub Actions for automated deployment

EDUCATION

Novena University, Nigeria: Bachelor of Science in Computer Science

September 2015 to August 2019
